LinkedIn : [LinkedIn/dhruvit](https://www.linkedin.com/in/dhruvit/)

Passionate Web Developer with experience in building fast, responsive, and user-friendly web applications. Skilled in both front-end and back-end development, creating complete solutions from design to deployment. Experienced in DevOps practices such as automating deployments, managing servers, and setting up CI/CD pipelines for smooth project delivery. A collaborative team player focused on clean code, continuous learning, and improving system performance.

## Projects:

- Safar Cars** | React, PHP, SQL (Jul - Sep 2025)
- Developed a web-based platform for buying and selling second-hand cars with features for easy car selection and direct contact with retailers.
  - Designed intuitive user interfaces and implemented backend logic for listing, searching, and filtering vehicles using PHP and SQL.
  - Enabled smooth user-retailer interaction through a built-in contact system to enhance the buyer experience.

- Online Shoes Store** | HTML, CSS (May - Jun 2024)

- Designed and developed a responsive website for an online shoes store using HTML and CSS.
- Created engaging product pages with image galleries, product details, and pricing information.
- Built a clean and user-friendly layout for browsing, selecting, and viewing shoes across different categories.
- Strengthened front-end development skills with hands-on practice in web design, layout structuring, and CSS styling.

- Mehendi Portfolio Website** | Full Stack, JavaScript (Jun - Jul 2025)

- Designed and developed a responsive website to showcase Mehendi artwork and past event galleries for potential clients.
- Implemented a slot booking feature enabling customers to schedule appointments for functions and ceremonies.
- Enhanced user experience with smooth navigation, modern UI elements, and mobile-friendly layout.
- Strengthened frontend development skills with a focus on user interaction, visual design, and responsive web design principles.
